

**Leading Value-Added Integrator,
Proudly Integrating and Supporting:**

Milestone Systems, Inc. serves IT teams in the areas of financial, retail & services, government, business services, legal, healthcare, manufacturing, and education.

We are a multi-faceted service provider, offering performance brands of appliances for network security and strategic application delivery, as well as expert training, services & support surrounding them.

- **Network appliances** for security and high application availability
- **Consulting:** thought leadership, subject matter expertise, project management.
- **Managed services:** 24x7 support desk; installation & deployment; security & audit services.
- **Training** in F5, IronPort, Juniper, Palo Alto Networks, and Blue Coat technologies by our engineering team, all of whom have extensive real-world experience and are certified by the manufacturer.

We're so proud that Milestone Systems has been recognized for 3 years in a row by **INC** magazine as a fastest growing private U.S. company. We also ranked in CRN's 2011 VAR 500 as one of the fastest growing VARs in North America.

Our team is small enough to be agile and technically strong enough to be of service to large clients, many of whom are in the Fortune 500.
